Users UX

**Admin Console Specs**

Need to login with credentials in order to access admin console
- Specific to schools (as determined by .edu email address)
- The Walla team needs a login that can access all the schools

***Due to NARPA regulations there is a chance that we need to encrypt the name + email address of students while displaying other information about them. No confirmation yet, but something to keep in mind***

Once logged in

USERS
Be able to view all users and their profile information
- Name, email address, picture
- Year, Major, Hometown
- Description
- How active they've been in the past day/week/month/semester/since joining

Be able to filter users by any of their profile information (above)
- Show for each identity what how many posts they've made in each category in the past day/week/month/semester
- Eg. People in the Class of 2020 have posted 8 posts in "free food" category

Be able to flag and delete inappropriate users

POSTS
Be able to see all the posts made
- Sorted by date posted
- Sorted by type of activity
- Sorted by flagged posts
    - Need to be able to delete flagged posts
- Sorted by number of people attended
    - Show what kind of identities of people attended
    - eg. Event xyz was attended by 2 Class of 2017 users, 3 Mechanical Engineering majors, 1 person from New Jersey, etc.
